

76R001100 DESTROY

60-298/a

10 January 1960

Dr. T. Keith Glennan /  
Administrator  
National Aeronautics and Space Administration  
1520 H Street, N. W.  
Washington 25, D. C.

Dear Keith:

I greatly appreciated your Christmas note from Cleveland. It has been a pleasure to work with you and I hope we will see more of each other during this present crucial year.

I shall be appearing before several Committees of the Congress these coming days to brief on the Soviet space accomplishments, since I briefed these Committees in 1959, and I should like to keep your office in close touch with any developments in this connection.

As you know, I am careful not to be drawn into comments with regard to comparative estimates of U. S. and Soviet accomplishments in this field or to make any comments on the American program, but merely to deal as an Intelligence Officer with the Soviet developments.

Faithfully yours,
